

### **2003 Volunteer Award**

This year's volunteer award goes to Shawn Tomlinson. The names of all volunteers who contribute an additional 120 hours, over the 120 hours necessary to receive 40 hours of vacation time. Shawn reported 260 hours of volunteer time in 2003.

Much of Shawn's volunteer time is spent getting the Gold Camp Christmas event together, alongside Lawrence Myers. With the able assistance of many other employees, Shawn and Lawrence refurbished the Gold Camp Christmas signs and ornaments that hang on the headframes. Shawn was also one of the dedicated volunteers who refueled and started generators to keep the holiday displays lit. This has always been a very popular holiday tradition, and we hope to keep upgrading the display from year to year.

Shawn was also vital in 2003 to the Gold Rush Days event. Shawn contributed volunteer time to move muck and the ore cart for the mining games. Without both of these components, hand mucking becomes rather dull.

CC&V volunteers contributed over 5000 hours to the community in 2003. Congratulations to Shawn and to all the volunteers who are such an important component of the community.
