

CC&V Donations to the City of Victor

-Once again CC&V donated the funds for dumpsters for Victor's clean up day. Residents were encouraged to clear out the winter debris from their yards and houses and have it hauled off.

-Now that the Sunnyside Cemetery is fenced, clean up work is progressing. Several work days were held to trim the grass and collect trash. After one day of using individual trimmers it became clear that the job is much more, and CC&V purchased a self propelled trimmer for use in the cemetery. CC&V is also working with the City's attorney to ensure that the City has ownership of all of the surface area of the cemetery.

-Beginning October 7, Victor and Teller County senior citizens will be able to enjoy a subsidized lunch on Tuesdays and Thursdays at the Victor Community Center. CC&V sponsored rental of the Community Center for this program. In other areas these lunches have been very beneficial in seeing that seniors have a hot lunch, and also to get them out to socialize and engage with others.

We're pleased to be able to support these valuable programs of the City of Victor.
